A Friendly View of the Railroad and Bridge Projects.

A great many questions have been asked and objections raised by your correspondents touching the Wheeling & Lake Eric Railroad and the Railroad Bridge enterprises. It must be apparent to the careful reader that many of these are prompted more by a desire to damage these projects than a sincere desire to be

How the company can af-ford to give \$400,000 to the bridge for the \$300,000 they expect from the city is not so difficult a problem, if your correspondents and querists will reflect a moment. For the \$300,000 subscribed by the city, the contractors furnish \$750,000,

Does any man who knows Joel Wood, who has been our next door neighbor for forty years, suppose or believe that he would deliberately attach his name to a statement so untruthful as your correspondent would have your readers believe. The State geologist and many eminently respectable citizens on the line, the active observations of the President of the road and others form city, who have been and others of our city who have been over the line frequently, the statistics of the Secretary of the State of Ohio and Mr. Stanton at the Court House meeting, all attest the richness of the route in minerattest the richness of the route in miner-las, agriculture, &c. CAPTURE OF A SUPPLY TRAIN.

Massacre of Persons in Charge by Mexicans and Indians.

Washington, May 17.—A report has been received at the War Department giving details of the massacre by Indians,
Mexicans and negroes combined, of persons in charge of a train of supplies en
route to Fort Stockton, at Howard's
Wells, near old Fort Lancaster.

The facts, as reported to Gen. Augur
by Col. Merritt, of the 9th Cavalry, under
date of the 29th of April age? is follows.

date of the 29th of April, are as follows: On the 20th inst. I arrived, with the cavalry of my command, at Howard's Wells, but a tew hours too late to prevent one of the most horrible massacres that has ever been perpetrated on this frontier. A Mexican train, loaded with United States commissary and ordnance stores on its way from San Antonia to Fort Stockton, was attacked by Indians, who plundered and burned all the people with the train, seventeen souls in all were killed or symbol. killed or wounded, except one woman. My command burried cleven bodies and woman into thus pest. Before arriving at the burning train the first intimtation we had of the horrible disaster was the chartiletened in gold, may be received for imred and blackened corpses of some of port duties. Agreed to.

Mr. Dawes offered an additional provisions of this section alive to tell the horrors of the affair. I supposed up to this time that Captain Sheridan with the infantry of my command, was in camp at Howard's Well, about a mile from the scene of

the massacre, and while yet some distance from the point, the smoke of the burning wagons mistaken for his camp fires, con-firmed me in this belief. I knew at least a Sergeant and four men were at the Well, in charge of the forage. I moved rapidly toward the Well, when the Sergeant in command of the detachment at that point, was met and pointed out the course the Indians had taken with the stolen animals of the train. In less time stolen animals of the train. In less time than it takes to relate it, the trail was found and a rapid pursuit was at once made by Companies A and H, of the 9th Cavalry, commanded respectively by Capt. Coney and Lieut. Vincent. After following the and Lieut. Vincent. Alter following the trail some seven or eight miles the cavalry came upon the Indians in force on the summit of an almost impassable bluff. Here a fight occurred, in which, I regret to say, Lieut. Vincent fell mortally wounded, while bravely leading and attempting to comp. About ten o'clock that night, Captain Cooney was painfully though not seriously injured by his horse falling on him while being moved at a rapid gate, he, however, remounted and rejoined his command. The men of his company behaved very well, but being in a great part recruits without experience in Indian fighting, which was the case in Company H. to a great extent, they squandered their amunition, and the lack of amunition made a protracted pursuit of the Indians imed, while bravely leading and attempting grant no more during the present session to control his men. He died shortly after After considerable colloquy as to the a protracted pursuit of the Indians im-practicable. A woman who escaped from the Indians reports that six Indians were killed in the fight. Words can not convey an idea of the sickening attrocities committed by the demons who overpowered the train men. Sev-eral of them were taken alive and tied to wagons and burned. An old wo-man was carried some distance from the place of attack and then shot and scalped. Her grandchild had its ears cut off, was scalped and had its brains knocked out, while the daughter, the mother of the child, who witnessed all this, as also the

child, who wincessed all this, as also the death of her husband, was carried off by the flends. More than one of the poor wretches crawled from the burning wag-ons to which they were bound, and got off only to burn to blackened and unreoff only to burn to blackened and unrecognized masses, with their charred hands a
and faces raised in positions of entreaty.
The train had ping men with it, the remainder of the party were women and
childres. It is leared one woman was
taken away by the band, though it is possible that she, as well as the other bodies
searched for, was burned to ashes with
the wagons. It is reported that the band
consisted of from one hundred and fifty men, and
was composed of Indians, Mexicans, and
describers from the army. A number of arms

deserters from the army. A number of arms and supplies of ammunition was taken from the train by the band before burning unition was taken it. How many I cannot say. It was the supply which was lately sent from the arsenal at San Antonia to Fort Stockton, Gen. Augur in this report expresses the on Augur in this report expresses the blanch the Indians were from Mexico by adding the words "except sheep skins" that Mexicans and deserters from the colored regiments were with them; such deserters universally escaping into Mexico.

Lexington Races. LEXINGTON, May 17.—The attendance at the races to-day was very large consid-ering the weather. Much rain fell during the night and morning, so that the track was very heavy, there being fully six nches of mud. Both the races were run in a heavy rain and the favorites bester in both. The time, though slow, was con-sidered good considering the condition of the track. The track promises to be of the track. The track promises to be much better to-morrow. It was thought Longfellow would not run in consequence of the rain, but Mr. Harper stated to the officers of the association that he should omers of the association that he should run Longfellow rain or shine, and on the strength of this declaration, and the fact also that Frogtown has made the fastest mile and a quarter and the fastest mile and three-quarters on record runs against

and three-quarters on record runs against him, great interest is being manifested in the race. Strangers who are arriving in large numbers will not be disappointed. The meeting so far has been a brilliant success, due in a great measure to the untiring energy and zeal of Capt. O. P. Beard, ot the Executive Committee.
